# KANOODLE GENIUS

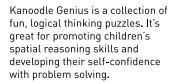

The ultimate brain workout!

Includes 202 ADVANCED puzzles!

CHOKING HAZARD—Small parts. Not for children under three (3) years.

# KANOODLE

For adults, these puzzles help maintain lifetime cognitive function. Exercising the brain is great for all ages! 202 puzzles are included, which makes Kanoodle Genius perfect for everyone from puzzle-loving children to puzzle-master adults. The small, portable case makes it easy to carry with you wherever you go.

#### The Puzzles

There are 3 levels of 2-D puzzles and 5 levels of 3-D (pyramid) puzzles, as well as some "Kanoodle Genius quizzes" for both types of puzzles. Levels 1 and 2 of the 2-D puzzles are great for young children. As the levels increase, the puzzles become progressively more difficult. The 3-D puzzles are considerably more difficult than the 2-D puzzles, so it's a good idea to begin with the 2-D puzzles and work your way up in difficulty.

#### The Noodles

Every Kanoodle Genius puzzle uses all 7 of the noodles (puzzle pieces). Each noodle is unique and designated with a letter. Each puzzle has a diagram, indicating where to place some of the noodles. Your challenge is to use the remaining noodles to fill in every remaining space on the board.

# Why are some spaces colored?

In a 2-D puzzle, colored spaces with letters indicate which noodles you should use and where to place them to set up the problem.

Use only the remaining noodles to fill in the empty spaces.

Do not move noodles once you have placed them into position according to the diagram.

#### Kanoodle Genius Levels for the 2-D Puzzles

Level	Description of difficulty		
Level 1 - Super Pro	Simple – a good challenge for younger kids		
Level 2 - Champ	Moderate – a bit more challenging and a good place for an adult or more experienced puzzler to begin		
Level 3 - Whiz	Difficult – a brain workout		

#### Instructions for 2-D puzzles

- 1. Remove the 7 noodles from the case and put them on the tray (see figure 1).
- 2. Turn to 2-D Level 1, Puzzle 1 (see figure 2). Place the 4 noodles on the board, exactly as shown in the picture (see figure 3).
- 3. Fill up the empty space with the remaining 3 noodles (see figure 4). You've completed your first Kanoodle puzzle!

Repeat steps 2-3 for the puzzles on the following pages. It's best to begin with the easier levels and work your way up to the higher levels as you gain proficiency. After you have solved all the 2-D puzzles, you are ready to start the 3-D pyramid puzzles.

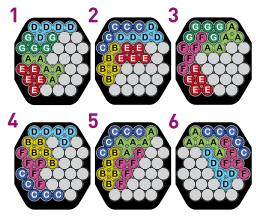

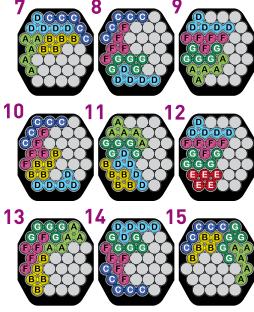

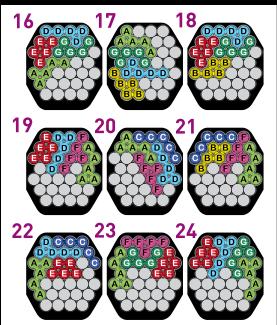

# **Level 1** Super Pro

Put 4 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 3 noodles.

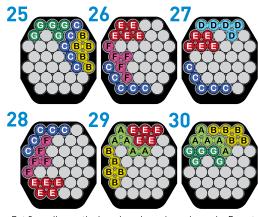

Put 4 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 3 noodles.

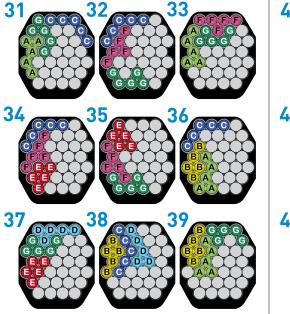

Put 4 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 3 noodles.

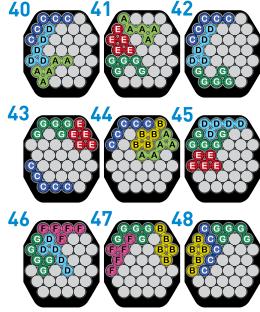

### Level 2 Champ

Put 3 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 4 noodles.

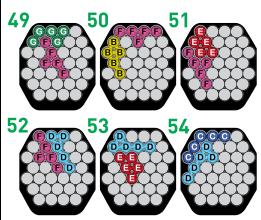

Put 3 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 4 noodles.

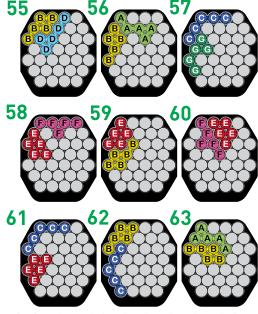

Put 3 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 4 noodles.

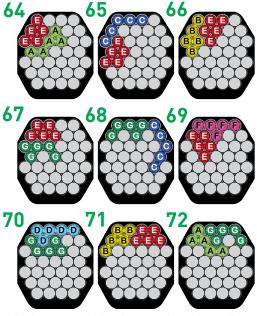

### Level 3 Whiz

Put 2 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 5 noodles.

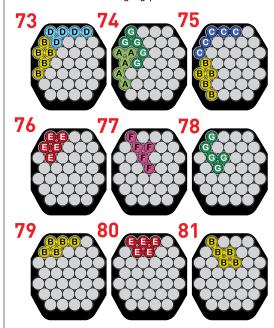

Put 2 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 5 noodles.

Put 2 noodles on the board as shown in each puzzle. Do not move noodles that are in position. To solve the puzzle, fill up the remaining spaces with the last 5 noodles.

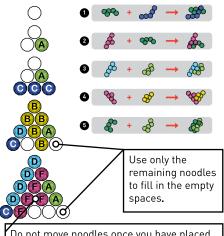

# **2-D Kanoodle Genius Quiz:** Solve these 9 challenging puzzles

#### 3-D Pyramid Puzzles

When you are solving pyramid puzzles, noodles may be stacked horizontally or vertically! Figures 1-5 show just some examples of the way noodles may be placed on the board; you'll have to figure out the rest on your own!

Do not move noodles once you have placed them into position according to the diagram.

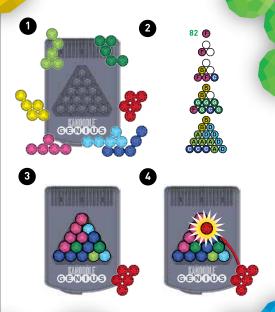

#### Kanoodle Genius Levels for the 3-D Puzzles

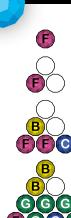

Level	Description of difficulty		
Level 1 - Champ	Moderate – a bit more challenging and a good place for an adult or more experienced puzzler to begin		
Level 2 - Whiz	Difficult – a brain workout		
Level 3 - Expert	Very Difficult – extremely rewarding to complete one of these		
Level 4 - Genius	Advanced – Wow! We're impressed.		
Level 5 - Kanoodle Genius	Super Advanced - If you can solve one of these, we applaud you!		

#### Instructions for 3-D pyramid puzzles

- 1. Remove the 7 noodles. Close the case so you can use the pyramid puzzle board (see figure 1).
- 2. Turn to 3-D Level 1, Puzzle 82 (see figure 2). Using the diagram to guide you, put the 6 noodles on the board (see figure 3).
- 3. Complete the pyramid shape with the last noodle. When you have built a 5-level pyramid (see figure 4), the puzzle is solved!

Repeat steps 2-3 for the remaining puzzles.

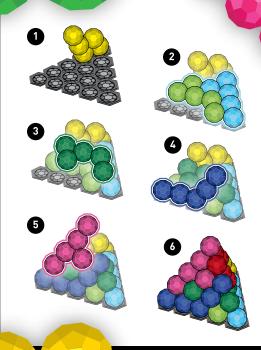

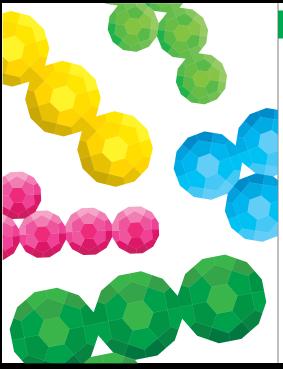

# Example of how to solve the first 3-D puzzle

- 1. Set up the puzzle according to the puzzle diagram. See steps 1-5.
- 2. Solve the puzzle by placing the remaining piece to form a pyramid. See step 6.
