Game Cards

Teddy comes with 24 two-sided game cards (48 games) that teach young learners a variety of important early skills in a fun game format. The skills are listed below. Each colorful card has four questions—nearly 200 questions in all! The upper right-hand corner of each card is color-coded to go with the color-coded dial on the Activity Pad. Before playing with Teddy, carefully open the Activity Pad by inserting a finger in the opening on the right side and lifting the top half of the Activity Pad. Remove the game cards from inside and close the Activity Pad.

Card Skills

Each of Teddy's 48 games reinforces an important early learning skill:

- **Color recognition:** Cards 1, 9, 12, 13, 17, 21, 25, 28, 36, 37
- **Shape recognition:** Cards 2, 3, 10, 19, 20, 27, 33, 34, 41, 44
- **Visual discrimination:** Cards 4, 7, 8, 15, 23, 29, 39, 40, 46, 47
- **Number recognition:** Cards 5, 22, 32, 38
- **Whole/part relationships:** Cards 6, 11, 14, 16, 18, 26, 45
- **Go-togethers:** Cards 31, 43
- **Science:** Cards 24, 30, 35, 42, 48

Let's Play!

1. Open the blue game card holder on the Activity Pad by pushing up on the underside of the holder.
2. Choose a game card and place it on the Activity Pad. Snap the game card holder closed.
3. Look at the color of the upper right-hand corner of the card and turn the dial so that it matches the color on the card. For example, Card 2 is color-coded black, so you would turn the dial to black.

NOTE: The dial is two-sided: red, dark blue, green, and black on one side and yellow, pink, white, and light blue on the other side. Simply lift the dial and place the side corresponding to the chosen card face up.

4. Look at the first question on the card. Then look at the four answer choices to the right of the question.
5. Place Teddy on your chosen answer. If you are correct, Teddy raises his flag high! If you are incorrect, try again.
